ELECTION/RESTRICTIONS

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-21, drawn to a vial and cap, classified in class 215, subclass 252.

II. Claims 22-37, drawn to a method of filling a vial, classified in class 53, subclass 471.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I and Group II are related as product and process of use.

The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the cap and vial can have a snap-on connection. Thus, the cap can be secured to the vial by snap-on engagement, then locked with one of two latches.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. During a telephone conversation with Robert Berliner on March 22, 2005 a provisional election was made with traverse to prosecute the invention of Group II, claims 22-37. Claims 1-21 have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview between Examiner J. Sipos and Mr. R. Berliner on April 15, 2005.

In claim 22 line 6, "and" has been deleted;

in the last line, "." Has been replaced with --; and--;

after the last line, the following has been inserted: --wherein the vial has a screw thread top and the cap is screwable thereon, whereby unscrewing rotation of the cap can break either locked latch.--.

Claim 27 has been cancelled.

In claim 28, line 1, "27" has been replaced with --22--.

Non-elected claims 1-21 have been cancelled.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
